

UNCLASSIFIED

Non-STIG Readme

Version 3, Release 3

09 December 2016

Developed by DISA for the DoD

UNCLASSIFIED

This Readme file describes the files that may be contained within this package and their usage.

The "STIG" file includes the requirements that are applicable, configurable, and selected on a DoD Baseline.

The files in this package represent the different "Status" assignments of the SRG requirements analyzed for this STIG.

The statuses, listed below, will not be included in the published STIG.

| Status | Description |
|--------|---|
| DNM | Applicable, not configurable, and does not meet the requirement. |
| IM | Applicable, not configurable, and inherently meets the requirement. |
| NA | Not applicable (to this product). |

The folder will contain the following:

| File | Description |
|--|--|
| FOUO_[technology_name]_VxRx-x_DNM-xccdf.xml FOUO_[technology_name]_VxRx-x_IM-xccdf.xml U_[technology_name]_VxRx-x_NA-xccdf.xml | These are XCCDF XML documents that contain the manual content of the SRG or STIG. |
| STIG_unclass.xsl –AND-STIG_fouo.xsl | This is an XSLT stylesheet that is used for converting the XCCDF document into HTML for viewing in a web browser. |
| DoD-DISA-logos-as-JPEG.jpg | This is a JPEG image that contains the DoD and DISA logos that are displayed at the top of the document when viewed as HTML. |
