

# SAMSUNG ANDROID OS 9 WITH KNOX 3.X CORPORATE OWNED BUSINESS ONLY (COBO) USE CASE KPE (LEGACY) DEPLOYMENT STIG CONFIGURATION TABLES

24 July 2020

Developed by Samsung and DISA for the DoD

UNCLASSIFIED

## LIST OF TABLES

#### Page

Table 1: COBO Configuration Policy Rules for Device-Wide Work Environment ......1

**Note**: The logic of some of the configuration settings in the following tables may differ from one MDM product to another. For example, the policy rule "Disable Manual Date Time Changes" may appear as "Allow Manual Date Time Changes" in some MDM consoles. In this case, the setting should be configured to "Unselect" instead of "Select".

Full details of the APIs used to implement the policies in the following table can be found on the Samsung Knox portal "Knox 3.x STIG Implementation Guide - Samsung Android OS 9 API table" page (https://support.samsungknox.com/hc/en-us/articles/360021444993). To filter the API details on the page to display only the policies in the following table, select only the "COBO KPE(LEGACY)" checkbox.

Policy Vendor	Policy Group	Policy Rule	Options	Settings	Related Requirement	Comment
AE	Android lock screen restrictions	disable trust agents	Select/Unselect	Select	KNOX-09- 000475	
AE	Android lock screen restrictions	disable unredacted notifications	Select/Unselect	Select	KNOX-09- 000285	
AE	Android lock screen restrictions	max password failures for local wipe	0+	10	KNOX-09- 000435	Unsuccessful logon attempts before device wipe
AE	Android lock screen restrictions	max time to screen lock	0+	15	KNOX-09- 000405	
AE	Android password constraints	minimum password length	0+	6	KNOX-09- 000375	Minimum device password length
AE	Android password constraints	minimum password quality	None, Pattern, PIN, Alphabetic, Alphanumeric,	PIN Alphabetic Alphanumeric or Complex	KNOX-09- 001445	Device password complexity PIN recommended

Policy Rule	Options	Settings	Related Requirement	Comment
	Complex,			
	Biometric			Some MDM consoles may
				display "Numeric" and
				"Numeric-Complex"
				instead of "PIN". Either
				selection is acceptable but
				"Numeric-Complex" is
				recommended. Alphabetic,
				Alphanumeric, and
				Complex are also
				acceptable selections but
				these selections will cause
				the user to select a complex
				password, which is not
				required by the STIG.

						the user to select a complex password, which is not required by the STIG.
AE	Android password constraints	password history length	0+	0	KNOX-09- 001395	
KPE	Knox Bluetooth	allowed profiles	HSP, HFP, PBAP, A2DP, AVRCP, SPP, NAP, BNEP, HID, BPP, DUN, SAP	HFP, HSP, SPP, A2DP, AVRCP, PBAP	KNOX-09- 000665	Disables all Bluetooth profiles except for those specified in the settings.
КРЕ	Knox Date Time	date time change enabled	Select/Unselect	Unselect	KNOX-09- 000735	
КРЕ	Knox WiFi	allow unsecured hotspot	Select/Unselect	Unselect	KNOX-09- 000945	Disallow unsecured hotspots

Policy Vendor	Policy Group	Policy Rule	Options	Settings	Related Requirement	Comment
KPE	Knox account	account addition blacklist	Configure	All email domains	KNOX-09- 000015	For KNOX-09-000015, confirm if Method #1 or Method #2 is used at the Samsung device site. This configuration is only required for Method #2: Refer to the MDM documentation to determine how to provision user's work email accounts for the work email app.
KPE	Knox account	account addition whitelist	Configure	All DoD-approved email domains	KNOX-09- 000015	For KNOX-09-000015, confirm if Method #1 or Method #2 is used at the Samsung device site. This configuration is only required for Method #1: Refer to the MDM documentation to determine if an "account addition blacklist" is also required to be configured when enforcing an "account addition whitelist" and how to provision user's work email accounts for the work email app.
KPE	Knox application	application installation whitelist	Configure	Add each AO- approved package	KNOX-09- 000075	Refer to the "System Apps that must not be disabled" table within the Supplemental document,

Policy Vendor	Policy Group	Policy Rule	Options	Settings	Related Requirement	Comment
						which must be included in the "application installation whitelist" to allow updates. Refer to the MDM documentation to determine if an "application installation blacklist" is also required to be configured when enforcing an "application installation whitelist" and if the MDM supports adding packages to the application installation whitelist by package name and/or digital signature or supports a combination of the two.
KPE	Knox application	system application disable list	Configure	Add all non-AO- approved system app packages, add all system app packages that have been identified as having non-DoD-approved characteristics, add all preinstalled public cloud backup system apps	KNOX-09- 000045, KNOX-09- 000105, KNOX-09- 000865	Refer to the "System Apps for disablement (other characteristics)" and "System Apps that must not be disabled" tables within the Supplemental document. Refer to the "System Apps for disablement (non-DoD- approved characteristics)" and "System Apps that must not be disabled" tables within the Supplemental document.

Policy Vendor	Policy Group	Policy Rule	Options	Settings	Related Requirement	Comment
КРЕ	Knox audit log	enable audit log	Select/Unselect	Select	KNOX-09- 000175	This simultaneously enables audit logging for Workspace events.
KPE	Knox banner	banner text	Configure	DoD-mandated warning banner text	KNOX-09- 001165	For KNOX-09-001165, confirm if Method #1 or Method #2 is used at the Samsung device site. This configuration is only required for Method #2: The administrator can configure enterprise- specific banner text. If enabled without configuring any text, the device will display a default text that matches the required DoD banner.
KPE	Knox certificate	Certificate	Configure	Install the DoD root and intermediate certificates	KNOX-09- 001085	Select PEM encoded representations of the DoD root and intermediate certificates.
KPE	Knox certificate	OCSP check	Configure	Enable for all apps	KNOX-09- 001345	Refer to the MDM documentation to determine how to configure OCSP checking to "enable for all apps". Some may, for example, allow a wildcard string: "*" (asterisk).
КРЕ	Knox certificate	revocation check	Configure	Enable for all apps	KNOX-09- 001055	Refer to the MDM documentation to determine how to configure revocation

Policy Vendor	Policy Group	Policy Rule	Options	Settings	Related Requirement	Comment
						checking to "enable for all apps". Some may, for example, allow a wildcard string: "*" (asterisk).
KPE	Knox encryption	enable external storage encryption	Select/Unselect	Select	KNOX-09- 000985	Encrypt all external media cards.
КРЕ	Knox multiuser	allow multi- user mode	Select/Unselect	Unselect	KNOX-09- 000645	
KPE	Knox password constraints	disable face	Select/Unselect	Select	KNOX-09- 000505	
KPE	Knox password constraints	maximum sequential characters	0+	2	KNOX-09- 000395	
КРЕ	Knox password constraints	maximum sequential numbers	0+	2	KNOX-09- 000395	
KPE	Knox restrictions	Disable Android Beam	Select/Unselect	Select	KNOX-09- 000805	
КРЕ	Knox restrictions	Disallow share via list	Select/Unselect	Select	KNOX-09- 000775	Note: Disabling "Share Via List" will also disable functionality such as "Gallery Sharing" and "Direct Sharing".
КРЕ	Knox restrictions	USB host mode exception list	APP, AUD, CDC, COM, CON, CSC, HID, HUB, MAS, MIS, PER,	HID	KNOX-09- 000755	

Policy Vendor	Policy Group	Policy Rule	Options	Settings	Related Requirement	Comment
			PHY, PRI, STI, VEN, VID, WIR			
КРЕ	Knox restrictions	allow auto- fill	Select/Unselect	Unselect	KNOX-09- 000585	
KPE	Knox restrictions	allow developer mode	Select/Unselect	Unselect	KNOX-09- 000925	
КРЕ	Knox restrictions	allow google accounts auto sync	Select/Unselect	Unselect	KNOX-09- 000865	
КРЕ	Knox restrictions	allow google backup	Select/Unselect	Unselect	KNOX-09- 000865	
KPE	Knox restrictions	allow install unknown sources	Select/Unselect	Unselect	KNOX-09- 000135	Disallow unknown app installation sources.
KPE	Knox restrictions	disable USB media player	Select/Unselect	Select	KNOX-09- 000685, KNOX-09- 000845	Disabling USB Media Player will also disable USB MTP, USB mass storage, and USB vendor protocol (KIES).
KPE	Knox restrictions	enable CC mode	Select/Unselect	Select	KNOX-09- 000715	Common Criteria (CC) Mode is fundamental to MDFPP compliance and is a top-level requirement. Puts the devices in CC Mode as defined by the Samsung Galaxy Device MDFPP Security Target. The following configuration must also be implemented for the Samsung Android

Policy Vendor	Policy Group	Policy Rule	Options	Settings	Related Requirement	Comment
						device to be operating in the NIAP-certified complaint CC Mode of operation: KNOX-09-001445: minimum password quality, KNOX-09-000505: disable face, KNOX-09- 000435/(KNOX-09- 000445): max password failures for local wipe, KNOX-09-001375/(KNOX- 09-001365): password recovery, KNOX-09- 001395/(KNOX-09- 001405): password history length, KNOX-09- 001055/(KNOX-09- 001045): revocation check, KNOX-09-001345/(KNOX- 09-001335): OCSP check, KNOX-09-001425: Secure Startup, KNOX-09-000985: enable external storage
						encryption, or disallow mount physical media.
КРЕ	Microsoft Exchange ActiveSync	password recovery	Enable/Disable	Disable	KNOX-09- 001375	The DoD mobile service provider should verify the Exchange server is configured to disable Microsoft Exchange

Policy Vendor	Policy Group	Policy Rule	Options	Settings	Related Requirement	Comment
						ActiveSync (EAS)
						password recovery.
