24 April 2020

Developed by Symantec and DISA for the DoD

UNCLASSIFIED

REVISION HISTORY			
Revision Number	Document Revised	Description of Change	Release Date
V1R3	- Symantec ProxySG ALG STIG, V1R2	<p>ALG:</p> <p>- V-94235 - Change check and fix procedure to allow banner statement to trigger. Fix now requires the creation of a new web access layer for the banner rather and requiring that access layer be processed first. This ensures that the banner will always trigger.</p> <p>V-94285, V-94287 - Added a note to the Vulnerability Discussion.</p> <p>Symantec ProxySG NDM STIG, V1R2 - No changes this release.</p>	24 April 2020
V1R2	<p>- Symantec ProxySG NDM STIG, V1R1</p> <p>- Symantec ProxySG ALG STIG, V1R1</p>	<p>NDM:</p> <p>- V-94413 - Changed the check and fix to not require traffic limits.</p> <p>ALG:</p> <p>- V-94225 - Changed the check and fix to clarify that HSM is not a requirement.</p>	24 January 2020
V1R1	- N/A	- Initial Release	20 May 2019
